## Customer Information: Software License Key

The following form is used to identify the pertinent information pertaining to a corporation's enterprise license which Absolute Identification, Inc., uses when building complete ViSoS systems at customer's requests.

This form should be sent to the person who maintains the license information and have that person or persons fill out the public portions of the form - ONLY.

Once Absolute ID receives the form with the public information filled out, our authorized employee will contact the person identified in the form to retrieve the license key information verbally and we will scribe the pertinent license information onto this form at which time the form number is cataloged into our system with its corresponding ABID license number and the hard copy document is stored in our secure files.

When an order is placed by the customer for an Absolute ID product, the Authorizations to Use License Key(s) form is sent to the authorized contact and when the signature is received back, Absolute ID then builds the product according to the customer's requirements.

The company keeps a running track tied to the ABID License Number of ALL devices built using the license key(s) and is available at the customer's request with 48 hour notice.
